

Remarks

Claims 1-22 are pending in this application. Claims 1-22 have been allowed, but formal corrections were required pursuant to *Ex parte Quayle*. In addition, the Abstract was objected to for its length.

Applicant has amended claims 1, 2, 4, 5, 6, 18 and 19 per the Examiner's suggestion. In particular, claim 1 has been reorganized, without changes to any wording, to present the "housing" limitation as a first limitation of the claim. Claims 2, 4 and 5 have been amended to substitute "wherein" language for "further comprising" language. Claims 5 and 18 have been amended to spell out "wireless application protocol" for "WAP." Claims 6 and 19 have been amended to spell out "wireless markup language" for "WML."

The Examiner has requested that claim 7 be amended to spell out the "abbreviation ... AT+C." However, "AT+C" is not an abbreviation, but is instead a name of a command set defined in, for example, GSM standard 07.07. The command set gets its name from the Hayes company modem standard, which begins its commands with "AT" and the subset "C" for cellular phones. Thus, there is no substitute which could replace the name of the command set "AT+C," and, respectfully, no amendment is possible or necessary.

Applicant has also replaced the Abstract herein to come within word limit criteria.
